## **Quality from start to finish**

We identify the best products on the market in terms of quality. Our teams on each project comprises of the best skills to ensure quality from start to finish.

Our teams and our customers can be confident that every load of material has been delivered by people who work safely and with care for the environment. We adhere to the highest levels of environmental management, ensuring our manufacturing facilities are good neighbours, as well as good businesses.

## **Safe**

We do not compromise on safety — it always comes first in everything we do. Using the latest safety systems, leadership techniques, training and support helps all of our people and subcontractors go home every night to their families.

Safety inductions are mandatory on sites and we start every day with site safety briefings, high lighting new risks and reinforcing the need for constant care. We work with customers to eliminate safety risks through design and construction processes. We enforce our rules and foster a positive safety culture on every site.

## **Sustainable**

We constantly review the plan and any change in plan is communicated to the customer. We ensure that the customer is part of every step in the planning and project roll out.
